GLAMOUR & FINESSE

FOR DELICATE SPACE

About "S"

Northern group was born with the simple idea of Genuity, Trust and Innovation. Since our inception in 1991, we have held these values high and strong. We have remained honest to our manufacturing practices. Northern group has today emerged to be one stop solution for Ply, Board, Door, Laminates, specialised engineered wood products, Pallets, LVL, DVL, Door skins, HPL etc. We boast to have one of the most extensive product lists in the industry.

Northern group has continually evolved itself with time. We have updated our infrastructure and manufacturing practices in both plywood and Laminates to make our products faster, smarter and cost effective. Our raw materials are procured from selected vendors ensuring the right quality in manufacturing. This reduces our quality deviations and helps achieve best standards. Our lab is equipped with modern machinery which is capable of undertaking almost fifty tests.

In the year 2015, we ventured into Laminate industry and there is no turning back since then. We have increased our monthly production manifold and introduced exclusive Northern Door Skins, Northern 800 (.8mm) collection, Brown Oak (1mm) collection, Northern HPL and Northern Slim. With pan India network we are confident that Northern Laminates will be available very near to you.

At Northern, we continuously learn from our past, improvise our present and innovate for future. We believe future has immense opportunities for us. We are evolving our product offerings like calibrated Plywood, LVLs, Specialised Grade Laminates for Auto Industry, Fire Retardant plywood, Container Flooring to name a few. We are adopting data learning software which helps us predict our production and supply better. We are upgrading our factories to reduce order and supply gap. We are reaching off shore to explore foreign market. We are moving towards sustainable development by remaining cognizant to environmental needs. Today we are working towards making low emission plywood. We are working closely with our dealers to understand new demands in the market. We are expanding our manufacturing capacity for better services.

Technical Specification

PROPERTY	UNIT MAX OR MIN	NORTHERN-HGS	ISO-HGS
Thickness	mm	0.8	-
Thickness Tolerance	mm	± 0.08	± 0.15
Surface Wear Resistance	Cycle (Min)	350	250
Resistance to DRY Heat at 180 degree Centigrade	Gloss other (Grade not worse than)	3 5	3 4
Dimensional Stability at Elevated Temperature	Dimension Change (1% Max) MD CD	0.42 to 0.50 0.72 to 0.80	0.35 to 0.55 0.85 to 1.05
Resistance to impact by small diameter Ball	Force N (Min)	>22	20
Resistance to Cracking (Thin Laminates)	Grade not worse than	5	4
Resistance to Stains	Gr. 1-2 (Grade not worse than) Gr. 3-4 (Grade not worse than)	5 4	5 4
Resistance to Cigarette Burns	Appearance (Grade not worse than)	3	3
Resistance to Colours Change in artificial Light	Wool Standard (Min)	6	6
Resistance to Scratches	Load in N (Min)	>2.2	>2.0

Coffee and tea stains can be removed using mild household cleaner or detergent and a soft-bristled brush

Refrain from using acidic or abrasive cleaner as they can damage laminates surface

Hair, textile and food dyes can lead to permanent stains. Should the dye spill over, wipe it off immediately using a dish-washing detergent. You can also use an all purpose cleaner.
